

**The SARC**

<https://sandyarc.wordpress.com>

The **Sandy Amateur Radio Club** was organized on September 25, 2014. It is open to any and all licensed amateur radio operators and anyone who is interested in the hobby. Members are a mix of rookies with technician licenses, those with a little experience, and some who are veteran operators with General and Amateur Extra licenses.

There are no dues. Just come to one of our regular meetings and get your name on the club roster. You don't even need to have an amateur radio license! **We meet on the 4<sup>th</sup> Thursday of every month at 7:00 pm at the Sandy City Library located at 10101 S. 1300 E. in Sandy.** *Whether you are a citizen concerned about emergency communications, or a veteran HAM operator who loves the hobby, you will find our club interesting, educational, and fun!*

**NETS**

The Sandy Amateur Radio Club's call sign is **WS7ARC**. Tune into our on-the-air radio nets, which are every Thursday, except the 4th Thursday at 21:00 hrs. (9:00 pm) local time.
